Alchemise Consulting Service – Inside Sales as a Service

Are you finding it difficult to know how to increase the quality of your marketing leads (MQL) to sales leads (SQL) generated by telemarketing agencies?

Are you finding it difficult to know how to find new business sales opportunities and not achieving a better ROI conversion?

Are you in a position where it isn't feasible to pursue the traditional FTE hiring model or continue dealing with marketing agencies that don't understand your business?

The Alchemise Consulting team can provide a solution to your needs utilising our outcome based, low cost, shared risk model, by installing one of our experienced consultants as a Inside Sales Manager. Our consultants have a minimum of 10 years experience in a number of industry sectors and can 'hit the ground running', saving you the cost, time, complexities and inherent risk of hiring a FTE staff member.

Our aim is to bridge the gap between **SALES** and **MARKETING** and deliver value to clients by integrating the often-separated arms of business to better satisfy customers and increase revenue.

Our success is your success, so we strive to achieve the best possible results and ROI for your business.

Risk

- Reduce your risk of hiring the wrong person for the role - our consultants have years of experience and are ready to make a positive impact on your business
- Your time, energy and finances are best utilised working in your business; let our Inside Sales team work on your business from the start - we are ready to hit the ground running

Cost

- The Alchemise Consulting model can save you up to 30-40% compared with the traditional FTE hiring model - remove recruiting fees, training and mentoring costs and overheads
- ISR working from lower base earnings with task based and shared risk commission, compared with a traditional FTE hire with high base and no guaranteed results
- Higher ROI with a shorter timeframe for qualified sales pipeline generation with quality.

Impact

- Our team is highly skilled with senior ISR experience across a number of industry sectors, and are flexible and adaptable to suit scope and market conditions
- Compared to the traditional FTE hiring model, we can offer an increased speed to market, and engagement is scalable to deliver the best value to your business than junior telemarketing cost per lead models.

Talk to us about how our model can be tailored best for you considering the risk, cost and impact of introducing marketing & sales resources to your workforce.
